

Vetiver

Tight Knit (SUB POP)

Despite a three-year hiatus, these freak-folk sweethearts have effortlessly reclaimed their position atop the pile on this, their debut release for Sub Pop. Evoking the same euphoric pleasantries we've come to know and love, *Tight Knit*

plays through like a virtual embodiment of the first track, "Rolling Sea." Seamlessly transitioning between surrealist lullabies, playful folk ditties and bohemian berceuses, the album evokes what can only be describes as the feeling of being gently rocked by the ocean waves. The multi-layered texture, as designed by collaborator Thom Monahan, features a perfectly suited organic sound, deep and earthy, that cradles the band's unaffected aesthetic. Truly a triumph of modern nostalgia, *Tight Knit* stands to take a place among the genre's classics. **LAC**
